ACHA Webinars Presents:

Living with and Managing Heart Failure in the Adult with CHD

Thursday, January 30, 2014, 7 p.m. – 8 p.m. EST

Presenter:
Richard Krasuski, MD

About the Webinar
Being told you have heart failure can be a scary thing! Do you know exactly what it means or how your doctor knows you have it? Have you asked yourself if your “heart failure” as a congenital heart disease patient is the same “heart failure” adults with acquired heart disease have? Do you wonder if there is anything you can do to help yourself and improve your symptoms? Will you have to take medications or change your diet? If you’ve asked yourself any or all of these questions, you won’t want to miss this webinar. Register today and hear Dr. Richard Krasuski, Director of the ACHD program at the Cleveland Clinic, talk about managing heart failure in adults with CHD.

About the Speaker
Richard Krasuski, MD, is Director of the Adult Congenital Heart Disease Center and a staff cardiologist in the Section of Clinical Cardiology, the Robert and Suzanne Tomsich Department of Cardiovascular Medicine, at the Sydell and Arnold Miller Family Heart & Vascular Institute at Cleveland Clinic. Prior to his 2005 appointment to Cleveland Clinic, Dr. Krasuski served as an officer in the United States Air Force at Wilford Hall Medical Center in Texas. During that time, in 2004 he was voted Researcher of the Year at Wilford Hall Medical Center and in 2005, he was the youngest physician ever recognized for the Gold Headed Cane Award for academic, clinical and research expertise. Dr. Krasuski currently serves on the ACHA Medical Advisory Board, and is a fellow of both of the American College of Cardiology and the American Heart Association.

About the Adult Congenital Heart Association
The Adult Congenital Heart Association (ACHA) is a nonprofit organization that seeks to improve the quality of life and extend the lives of congenital heart defect survivors. Through education, outreach, advocacy and promotion of research, ACHA serves and supports the more than 1.8 million individuals with congenital heart defects, their families, and the medical community. If you would like to find out more about our programming, visit our website, www.achaheart.org. To support ACHA’s mission to improve and prolong the lives of heart defect survivors, you can make a donation on our website.

This webinar was made possible in part by unrestricted educational grants from Actelion Pharmaceuticals US, Inc., Gilead Sciences, St. Jude Medical Foundation and AstraZeneca.
